Skills

C# .NET, ASP.NET MVC, WPF,
SQL, Entity Framework, PHP, Git,
OOP, LINQ, HTML/CSS, REST API,
Bootstrap, JavaScript, Docker

Projects

About me

I am a junior developer focused on **C#** (**ASP.NET**, **WPF**) with experience in **API design**, **database** modeling, and creating responsive websites (JavaScript, **PHP**, Bootstrap).

I am deepening my knowledge through personal projects, including areas of **security** and **Linux**. I am seeking a junior **.NET developer** position where I can combine technical skills with teamwork and grow towards designing secure and sustainable solutions.

Projects

Insurent.NET (Pojišťák.NET)

Developed an insurance management system (**C#**, **ASP.NET**, **MS SQL**, EF, Bootstrap). In addition to authentication, **I also implemented an admin panel** for managing users, including insurance company employees.

Taskami

Developing a task management app (**C#**, **ASP.NET**, **REST API**) combining Pomodoro and To-Do List features **to boost productivity**. The app is designed for **self-hosting**, giving companies and individuals **full control over their data** by enabling **easy deployment on their own web servers**.

Dashboard

Created a customizable web dashboard (**PHP**, JavaScript) with **Google login support**. Users can **save bookmarks**, customize backgrounds, change search engines, and read RSS feeds.

Avaiable online: dnx.mzf.cz/dashboard

DEV portfolio

Designed and built a responsive web portfolio (**PHP,** Bootstrap) focused on **clear project presentatio**n, modern UI/UX, and **easy extensibility**. Serves as a **personal showcase platform** with **quick content update** capability.

Languages

Czech Native
English A2 (A2/B1)

I am interested
in further developing my English.

Education

Oct 2024 - Mar 2025
ITnetwork - retraining course

Web app development in C#

A five-month retraining course focused on C# and web development using **C#** (**.NET**), **ASP.NET**, **MS-SQL**, and JavaScript.

Final project: Insurent.NET (English translation of Pojišťák.NET)

Sep 2020 - Jun 2022
SŠTGA - Follow-up school

Business studies

Sep 2017 - Jun 2020
SŠTGA - Vocational school

Logistics

Interests and Soft skills

Open to learning new technologies, analytical thinking, independence, **ability to improve without guidance**

I enjoy learning - I listen to podcasts, lectures, and read professional books.

Interests: open-source projects, cybersecurity, modern technologies (including crypto), self-education, linux OS
